### Exercise 1 Output:

## **Exercise 2 Answer:**

### **1. The answer to Question 2.1:**

The difference between a fixed width and percentage when setting table width is that a fixed width will stay the same size across different viewports, for example if it is set as 150px it will still be 150px across different viewports. However with percentage it adjusts the table width based on the screen size it's being displayed on. The layout is much more responsive and adaptable when using percentage as it will adapt to the different screen sizes it's being displayed on.

Our History

### **Like many Calgary success stories, ours has a spirited beginning, an unprecedented growth spurt and a promising future.**

Even before Alberta became a province in September 1905, the citizens of a very young Calgary were determined to host a post-secondary institution as part of building a great city.

In 1906, the Alberta Normal School (which would later become our own Werklund School of Education) began operations and provided a steady stream of educators for a new province eager to grow and advance quickly.

When the University of Alberta was founded in 1908 in Strathcona (now part of Edmonton), Calgarians were disappointed with the "branch plant" concept that ensued and lobbied for decades for an independent institution of their own. Students, faculty, staff, alumni, donors and volunteers joined together to support the cause, with great passion and commitment.

Their dedication was finally rewarded on April 29, 1966 when the University of Calgary was granted autonomy. From there, growth was fast and furious, as a new campus took shape and innovative educators came to Calgary from around the world.

In 2016-17, the University of Calgary marked its 50th Anniversary as an autonomous institution.

### **The roads that brought us here**

What are our defining moments? They wind through 50 years and countless memories, each one stamping a mark on the cultural and physical landscape of our city. We're looking back but we're pushing forward.
